

UNPACK THE INNOVATIVE TECHNOLOGIES

**BOXMASTER 2500**

[www.eddapack.com](http://www.eddapack.com)

## INSTANT-PACKING

Safe and responsible packaging — just in time.

The BOXMASTER 2500 cardboard box cutting machine produces resource-friendly packaging solutions for the future of the wood-processing industry. The BOXMASTER produces made-to-measure cardboard boxes fully automatically and just in time.

In a dynamic process, raw materials are used responsibly, thereby saving packaging and filling material in significant amounts.

With the models of our cardboard box cutting machines, we have the right solution for every customer — from entry-level models up to high-performance machines, from standard use to complex packaging cutting.

With the BOXMASTER 2500, produce exactly the packaging that you need — in optimal form, with a high volume-utilization factor and the lowest possible unit costs.

## TECHNICAL FEATURES

### MACHINE GENERAL FEATURES

Tool Positioning System		Pin Positioning	
Max. Cardboard Width	mm/inch	2500	98 <sup>27</sup> / <sub>64</sub> "
Transversal Axis Speed	m/min	200	
Longitudinal Axis Speed	m/min	120	
Transversal Station		1	
Longitudinal Station	optional	7 (up to 16)	
Min. Distance of Tools	mm/inch	20	25 <sup>1</sup> / <sub>32</sub> "
Min. Length	mm/inch	350	13 <sup>25</sup> / <sub>32</sub> "
Suitable Cardboard Thickness	mm/inch	2 - 7	5 <sup>1</sup> / <sub>64</sub> " - 9 <sup>1</sup> / <sub>32</sub> "
Pre-defined Box Types		More than 50 pre - defined boxes	
New Box Type Adding		Available	
Cutting Tool Specifications		Ø76 x 22 x 2,00 High Speed Steel	
Software		EDDAWORKS®	
Operating Temperature		10°C (50°F) - 40°C (104°F)	
Electric Supply	Volt	220, 50/60 Hz Monophase	
Total Power	kW	2,5	
Total Weight	kg	1800	

The machine is equipped with improved component that allow the machine to work accurately, without failure and for a long time.

Driven Feeding System  
with Polyurethane Rollers

Longitudinal Cutting  
and Creasing Tools

Driven Feeding System  
with Timing Belt

Transversal Cutting  
and Creasing Tools

EDDAWORKS<sup>®</sup> Software

**DO YOU**  
know which  
equipment is  
included

Some useful optional equipment. You can search for more with us.

Barcode Reader

Label Printer

Top Press Unit

In-line Top Press Group

**DO YOU**  
need any  
optional  
equipment

Keep your products in safe!

Flexible and universal packaging solutions for many industries. From small productions to huge manufacturing areas. Our team will help you to search the optimal equipment for your production needs.

Furniture

Radiator

Automotive Spares

Door

Chair

Washstand

Electrical Panel

Box

**WHICH**  
sector  
is yours

Advantage contents applicable to carton box machine.

**Profitability;**

prepares ready-made templates  
less than 60 seconds at any time.

**Stacking;**

convenience and improvement of storage in  
warehouses and reduction of the occupied space.

**Compactness;**

thanks to the one-piece construction of the  
housing, it is easy to install and reduces the  
working area.

**Accuracy;**

accurately performs cutting and creasing  
with exact observance of the specified  
parameters for small and serial tasks.

**Environmental friendliness;**

low electricity consumption, using  
environmentally friendly material like  
cardboard.

**Payback;**

eliminating waste of materials and the worker  
factors, with productivity in a minimum space.

**Presentability;**

processing without roughness, distortions and other defects,  
that will be given impeccable appearance of the package.

**WHAT**  
are the  
main  
advantages

**Productivity;**

Provides reduction in energy consumption and cost of packaging materials.

**Practicality;**

User-friendly touch panel has 5 different operating modes and recipes.

**Ergonomics;**

It provides easy adjustment of the machine parameters by touch panel screen.

**Protection;**

Optimal protection of products from external factors, reducing damages during transportation.

**Immutability;**

It provides an uniform shape of the packaging standard for all products.

**Flexibility;**

It allows to pack workpieces with different heights, lengths and thickness.

**Strength;**

It contains the long-lasting parts for serial usage and operation.

**WHAT**  
are the  
main  
advantages

All around the world

We have strong references and partners in many countries who provide all technical service, installation, training and spare part support. Our main principle to provide the immediate support.

We are servicing at

**5**  
**CONTINENTS**

around the World
